

Accessibility test report

AbsoluteUI | Kasadara Technology Solutions Pvt Ltd
Recorded run: 2026-09-29 08:01 UTC, commit f9ec31d. Library version 0.9.3.

AbsoluteUI targets WCAG 2.2 Level AA and tests it automatically on every release. This report describes that automated testing and its results. It is not a conformance claim for any application built with AbsoluteUI.

42 / 42 axe WCAG 2.2 A/AA scans passed	405 / 405 End-to-end tests passed	252 / 252 Theme contrast pairs at AA	97 Components with an accessibility contract
--	---	--	--

Scope and known limits

Automated tools detect only part of WCAG failures. No third-party manual audit has been performed yet, and screen-reader behaviour has not been manually verified with NVDA, JAWS, and VoiceOver. A VPAT/ACR is not yet available.

What is tested on every release

Gate	What it checks
axe-core	WCAG 2.0, 2.1, and 2.2 A and AA rules on every component harness page, in the default, dark, and high-contrast themes, with popups and edit modes open
Keyboard flows	Documented keyboard matrix per component, focus order, focus return, no traps
Reflow	No horizontal scrolling at 320 CSS px (WCAG 1.4.10)
Reduced motion	Transitions and animations removed under prefers-reduced-motion
Forced colors	Boundaries, focus, and selection stay visible in Windows contrast themes
Contrast	Every role-token pair of every shipped theme against WCAG 1.4.3 and 1.4.11
Strict CSP	Every harness page runs with script-src 'self', no inline styles, and Trusted Types enforced

Theme contrast

Theme	Pairs	Passed	Failed
absolute-default	84	84	0
absolute-dark	84	84	0
absolute-high-contrast	84	84	0

Token-level assessment (Theme Designer engine)

Meets the AbsoluteUI token-level WCAG 2.2 AA baseline in every mode (1 advisories). Verify rendered pages as well.

Assessment	Passed	Failed	Warnings
WCAG 2.2 AA color contrast	492	0	0
Text contrast	216	0	0
Large-text contrast	15	0	0
Non-text / UI component contrast	261	0	0
Focus indicator visibility	9	0	0
Disabled and interactive state differentiation	15	0	0
Touch target size	12	0	0
Zoom and reflow risks	14	0	0
Reduced-motion compatibility	5	0	0
High-contrast compatibility	168	1	0

Advisories (not required at AA):

- WCAG 2.2 1.4.6 (AAA): High-contrast theme pairing: Danger menu item while hovered or focused, measured 6.74:1 (recommended 7:1).

Environment

Machine	Intel(R) Core(TM) i7-10510U CPU @ 1.80GHz, 8 logical cores, 32 GB RAM
System	win32 10.0.26200 (x64), Node.js v22.18.0
Browser	Chromium bundled with Playwright (headless, Desktop Chrome profile), Playwright 1.63.0

Generated from the recorded end-to-end evidence and shipped component metadata. Nothing in this report is hand-typed. Report generated 2026-10-26.
